Course Planning Specifics: Mechanical Engineering

Students who are interested in mechanical engineering should complete the Calculus sequence in their first year (MA 1021-MA 1024), and Physics during their first two terms. Completion of these courses can be through a combination of AP or transfer credit, as well as WPI courses. So, if you received AP credit for courses early in the sequence, you can start at the next course in the sequence. For students who have advanced placement credit for Physics (Mechanics), please consider taking CH 1010 in A term. Click here for the degree requirements for Mechanical Engineering.

Students with an interest in mechanical engineering are encouraged to engage early in the discipline by taking one or two introductory courses in the first year. Introduction to Computer Aided Design (ES 1310), Introduction to Engineering (ES 1020), and Materials Selection and Manufacturing Processes (ME 1800) are three excellent ways to learn how mechanical engineers design and make artifacts for the modern world.

Students should also consider taking a Great Problems Seminar during their first year to get a jumpstart on our project experience here at WPI.

Example of a typical course schedule for your first two terms

## Course Planning Worksheet: Mechanical Engineering

Math Placement Test Result: ____________________________  AP/IB/Transfer Credit: ____________________________

### Abbreviation Key for Course Planning Tracker:
- **GPS** = Great Problems Seminar
- **HU** = Humanities Course (includes AB, AR, CN, EN, GN, HI, HU, INTL, ISE, MU, PY, RE, SP, TH, WR)
- **SS** = Social Science Course (includes ECON, ENV, GOV, PSY, SD, SOC, SS)
- **BB** = Biology Course
- **PH** = Physics Course
- **CH** = Chemistry Course

Any courses marked with an asterisk (*) are optional programs, and can be taken in addition to the three courses.

**Please Note:** The Great Problems Seminars are a two term sequence course. They are also **linked**. This means that when registering for a GPS course in A term, you must register for its second half in B term.

### A Term Selections  | (Include CRN)  | B Term Selections  | (Include CRN)
